

Chapter 11: Going All Out with FrontPage

Extra Credit

Easy Web Design project, Chapter 11

As you might have noticed, the Notebooks online sample site at <http://www.creationguide.com/notebooks> includes some text links in the body, additional product descriptions, and linked pictures throughout the site. For extra credit, you can complete the product tables and link the random pictures placed throughout the site to their product descriptions on the Notebooks page. Remember—you'll need to create bookmarks for each product entry first.
